200 Series
August 14-17, 2006
Tampa Airport Hilton Westshore
2225 North Lois Avenue
Tampa, Florida 33607**

CARB 200 Series training program provides information on processes emission points, controls and inspection points for a variety of industrial processes. Each course includes a classroom session and field training at a representative facility, which gives the opportunity to see how the information applies to a "real world" situation. The courses are beneficial not only for the inspector, but also for individuals involved in rule development, permitting and emission inventory development.
